

READ TO SUCCEED – REQUIRED READING

2019-2020

WHAT CAN STUDENTS TEST ON?

Students may test on any books that are readily available in their school libraries. Teachers, librarians, and parents are encouraged to work together to help students find interesting and exciting books that they may test on.

HOW ARE GRADES CALCULATED FOR RSRR?

A student's RSRR grade is figured from two equally weighted parts:

Part 1 (50%) – Points Earned (16 points maximum entered in gradebook)

Part 2 (50%) – Average Quiz Score (Percentage)

- Students cannot receive more than the maximum number of points required, regardless of the number of points earned.
- Points and Percentage both reset every trimester.
- Students that pass a RSRR test with a 70% or higher will receive points for the book. Since a student may take a test on a book up to three times, all quiz attempts are averaged to get the Average Quiz Score.

HOW ARE GRADES CALCULATED FOR ENGLISH CLASSES?

Average Quiz Score ONLY

- This score is 3% of overall trimester grade.
- Course curriculum can only count for up to 50% of Required Reading grade.
- RSRR Testing resets every trimester.
- An independent book is required.
- Students must meet their teacher's minimum point requirement every trimester they have an English class. If a student does not take an independent RSRR test, the teacher will enter a 0% for this grade.

ADDITIONAL INFORMATION

Students are not able to use their books when taking their RSRR tests.

All book assessments must be completed no later than five days prior to the end of the trimester in order for students to receive credit.
